

HOW TO PREPARE FOR THE GRE

Make sure to check each graduate school you are applying to for whether they require subject tests or the general GRE.

1

Get the Study Material

It is essential to get study materials before you start.

2

Clear the Basic Concepts

You should be able to understand the concepts before proceeding onto practice.

3

Practice Test

Practice is the key to achieving a good GRE Score. Take timed GRE practice tests.

4

Time Management

Manage your study time so that you can cover all the topics.

5

Accuracy

Complete the questions you know first and budget time for the more challenging ones. Keep track on your accuracy and consistency.

3

Register for the GRE on www.ets.org

Take the GRE at least a month before your applications are due.
