Academic Advising Description/Definition

Academic advising is an educational process that, by intention and design, facilitates students' understanding of the meaning and purpose of higher education and fosters their intellectual and personal development toward academic success and lifelong learning. (NACADA, 2007)

At Washington State University, academic advising provides students with the opportunity to build a relationship with their advisor for the purpose of gaining assistance in planning their educational career, in learning the skills needed for academic success, and in learning how to access the variety of resources and services available to them on the WSU campus. Academic advising is a collaborative educational process whereby students and their advisors are partners in meeting the essential learning outcomes, ensuring student academic success, and outlining the steps for achievement of the students' personal, academic, and career goals. This advisor/student partnership requires participation and involvement of both the advisor and the student as it is built over the student's entire educational experience at WSU. Both the student and the advisor have clear responsibilities for ensuring the advising partnership is successful.

Demonstrating Your Achievement of Learning Outcomes

In order for you and your advisor to accurately measure and document that you have achieved the learning outcomes for academic advising, the two of you will develop an on-going portfolio of your advising work. This portfolio will consist of a variety of documents including your educational plan, your semester schedules, collaborative work done due to various referrals on campus, and a variety of documents that you and your advisor will develop together to demonstrate your achievement of these outcomes.

Assistance with Issues Involving Disabilities

Washington State University offers a variety of accommodations to students with disabilities based on appropriate documentation, nature of disability and academic need. In order to initiate services, students should meet with the Disability Resource Center – DRC (Ad. Annex 205) at the start of the semester to discuss reasonable accommodation. If a student does not request accommodation or provide documentation, the faculty or Professor is under no obligation to provide accommodations. You may contact the DRC at 335-3417. If you require modifications, it will be your responsibility to ask for them as needed.
